MAHIPAL SINGH

Android Developer | Kotlin | Jetpack Compose | Android TV / OTT | Kiosk CMS
Gurugram, India | +91 6260849771 | smahipal778@gmail.com | linkedin.com/in/mahipalsinghad

PROFESSIONAL SUMMARY

Android Developer with **2 years 6 months** of professional experience building native apps in **Kotlin** and Java. Hands-on with **Android SDK**, **Jetpack Compose**, **XML Layouts**, **MVVM Architecture**, **Clean Architecture**, **Dagger/Hilt**, **Kotlin Coroutines**, **Flow**, **RESTful APIs**, **Retrofit**, **Room Database**, **Firebase**, and **Git**. Shipped Play Store apps with **4.5+** ratings, **Streamly** OTT **Android TV** with **200+ live channels** on **ExoPlayer**, and a production Kiosk CMS with **Lock Task Mode**. Currently building **Medi AI**, a family healthcare app with **ChatGPT API** doctor comparison.

SKILLS

Technical: Kotlin, Java, Android SDK, Jetpack Compose, XML Layouts, Material Design, MVVM Architecture, Clean Architecture, Dagger/Hilt, Jetpack Navigation, ViewModel, LiveData, StateFlow
APIs and data: RESTful APIs, Retrofit, OkHttp, JSON, Room Database, SQLite, WorkManager, Kotlin Coroutines, Flow, Git, GitHub
Firebase and tools: Firebase Authentication, Firestore, FCM, Android Studio, Gradle, Google Play Console, Media3 ExoPlayer, ProGuard/R8
Domains: Android TV, OTT, EPG, Kiosk Mode, Lock Task Mode, Device Owner, Digital Signage, Healthcare, Medi AI, Flutter, ChatGPT API, Gemini API
Soft skills: Cross-functional collaboration, Debugging, Code review, Problem-solving, Agile delivery, Technical documentation

WORK EXPERIENCE

Software Development Engineer | CBSL Group | Gurugram | Nov 2025 – Present
Total tenure: 1 year. Building production Android apps for digital signage, kiosk devices, and **Medi AI** healthcare.

Kiosk CMS Android Application (Kotlin | Jetpack Compose | Hilt)

- Developed a production digital signage Kiosk CMS player in **Kotlin** and **Jetpack Compose** using **MVVM Architecture**, **Clean Architecture**, and **Dagger/Hilt**.
- Implemented **Kiosk Mode** with **Lock Task Mode** and **Device Owner**, plus KeepAliveService and reboot auto-start for always-on branch displays.
- Integrated **RESTful APIs** using **Retrofit**, **OkHttp**, and Gson for device setup, template polling, content scheduling, and remote configuration.
- Used **WorkManager** and **Kotlin Coroutines** for background content download, template sync, and offline playback when the network is unavailable.
- Built **Media3 ExoPlayer** video zones with playlist auto-transition and codec-error recovery for landscape, always-on kiosk / TV hardware.
- Optimized memory and resource use for 24x7 kiosk devices and managed releases through **Google Play Console** and enterprise distribution.

Medi AI – Family Healthcare Application (Kotlin | Jetpack Compose | ChatGPT API)

- Currently building **Medi AI**, a family healthcare Android app in **Kotlin** and **Jetpack Compose** for medicine tracking, doctor appointments, health reports, and AI-assisted care.
- Implemented family member profiles, medicine dose and refill reminders, appointment calendar, prescriptions, and health report upload with **REST API** integration.
- Integrated **ChatGPT API** to compare up to 3 doctors for the same condition, generating AI summaries, differences, and discussion questions from prescriptions and reports.
- Built smart search for doctors, medicines, and specialities, plus backup and restore of medical records on a private server.

Associate Consultant – Development | Oodles Technologies | Gurugram | May 2024 – Nov 2025
Total tenure: 1 year 6 months. Android, Flutter, and **Android TV** / OTT product development.

- Developed and maintained Android mobile and OTT applications in **Kotlin**, Java, and Flutter using **MVVM Architecture**, **Material Design**, and **Git**.
- Collaborated with product, design, and backend teams to ship Play Store apps with **4.5+ average ratings**.
- Owned feature delivery across the software development life cycle (SDLC) from implementation and debugging to **Google Play Console** release.
- Integrated **RESTful APIs**, **Firebase**, **FCM** push notifications, **WorkManager**, and In-App Purchases to improve engagement and reliability.
- Implemented Bluetooth, GPS, gyroscope, and offline data storage, and used **Git** for version control and team collaboration.

OTT Android TV Application – Streamly (Kotlin | ExoPlayer)

- Developed and deployed **Streamly**, an OTT **Android TV** application with **200+ live channels**, **EPG**, and end-to-end streaming using **ExoPlayer**.
- Implemented playback, channel listing, and performance-focused streaming flows for **Android TV** devices.

AR Application (Computer Vision)

- Built an AR application using object detection to generate 3D models that mimic dance movements for an interactive experience.

Android Developer Intern | Teachnook | Remote | Dec 2023 – May 2024

Total tenure: 6 months. Foundation Android development in **Kotlin** and Java.

- Built Android applications in **Kotlin** and Java with **XML Layouts**, ConstraintLayout, RecyclerView, ViewPager2, and **Material Design**.
- Used **Android SDK** Jetpack libraries including ViewModel, LiveData, **Jetpack Navigation**, **Room Database**, and Data Binding with **MVVM Architecture**.
- Integrated **RESTful APIs** using **Retrofit**, and implemented **Firebase** Authentication, Firestore, and **FCM** push notifications.
- Debugged crashes with Logcat, tested on multiple devices and emulators, and collaborated using **Git** and **GitHub**.

EDUCATION

Master of Computer Applications (MCA) | Manipal University Jaipur | Sep 2025

Bachelor of Computer Applications (BCA) | Jain University, Bangalore | Jan 2022

CERTIFICATIONS

- **Kotlin** Essential Training
- Programming Foundations: Design Patterns
- Java: Data Structures
- Android Development: **Retrofit** with **Kotlin**
